Most Haunted, Taps, Paranormal State, whatever your flavour, nothing is safe this week as we delve into the minds of our listeners to discuss one of the most controversial subjects in the paranormal, TV.

Do you like those programs? Which is your most or least favourite? Why? What compels you to watch them?

Do you hold any belief in the programs or are you against these type of shows and see them as nonsense created just to make a few quid from gullible viewers whilst manipulating them.

Do you find Derek Acorah nothing but mindless drivel or is he the next messiah? Can he really communicate with the dead or is he and other TV psychics simply performers which some would say is still more credit than they deserve.

Truth, Lies, Real or Fake, this is your show so tune in and join us this Sunday (7th Feb 2010) live from 8pm to 10pm.
